SUMMARY

Front-End Developer with 3+ years of experience in developing and delivering user-facing features for web applications. I have expertise in React, TypeScript, and various other front-end technologies. I am proficient in building scalable and maintainable web applications, optimizing code for speed and scalability. I am committed to staying up-to-date with the latest front-end development trends and continuously improving my skills.

EXPERIENCE

Front End Developer

Techstack Ltd

📅 04/2022 - Present   📍 Kharkiv, Ukraine

- Mentored new junior/trainee front-end developers on company in expanding JavaScript, TypeScript, React skillset
- Updated trainee program, added documentation with tasks for the interview, new features, tasks for each theme
- Promoted testing coverage, migrated from enzyme to react-testing-library, created reusable mocks for tests
- Participated in the development of the system design (React/Emotion/Theme UI).
- Participating in product releases and daily code reviews.

Front End Developer

ATLANT 3D

📅 10/2021 - 03/2022   📍 Remote

- Communicated with customer, and back-end developers discussed expected behavior of product
- Participated in product releases and code reviews, conducted demo of the project
- Reworked existing implementation of communication between electron and back-end (webapi), used more secure bridge
- Implemented 3d visualization, used threejs
- Maintained branding throughout the product's interfaces.

Front End Developer

Bigtincan

📅 01/2021 - 10/2021   📍 Remote

- Collaborated with 6 other team members to develop new user-facing features
- Assisted in building reusable React components for future use
- Optimized project for speed and scalability with webpack
- Promoted and added Redux-Saga into project

Junior Front-End Developer

WizardsDev

📅 01/2020 - 12/2020   📍 Kharkiv, Ukraine

- Implemented technology solutions for admin panel
- Covered with tests every new feature to identify and rectify bugs
